

Sustainable CAPE Strategic Plan, FY22-25

MISSION

Sustainable CAPE's mission is to celebrate local food while inclusively educating about the health of our bodies, community, and environment.

VISION

Sustainable CAPE empowers all individuals to become agents of change – thereby creating a decidedly more delicious, healthy and sustainable world.

CORE VALUES

Connection, Creativity, Dignity

STRATEGY

Connecting schools and farmers' markets is a critical step in addressing our region's well-being and expanding transformational change. We develop curriculum and creative arts programs that grow food, community and connection while advancing equity, diversity and inclusion. Together with our collaborators we envision change, build food security, promote dignity and create a healthier and more resilient world for all.

GOALS

- *Create Sustainable Educational Opportunities*

by broadening the reach of our multi-generational nature, agriculture and creative arts programs, advancing diversity, equity and inclusion & sharing knowledge and processes with community partners

- *Create a Sustainable Environment*

by promoting food equity, cultural equity and natural resource equity for our diverse community through connection and knowledge-sharing with artists, educators, farmers & fisherpeople

- *Create Sustainable Operations*

by evaluating data on program effectiveness, prioritizing collaboration, hiring community members with lived experience, diversifying funding streams and securing a longterm organizational home

*Engaging all ages in learning about nature through agriculture & art.
Growing Food. Growing community. Growing connection.*
